DETAILED ACTION

Introduction

1. Claim 1-42 of U.S. application 09/382,851 filed on 08/25/1999 are presented for examination.

Election/Restrictions

2. Restriction to one of the following inventions is required under 35 U.S. C. 121:

I. Claims 1-41, drawn to audio information system combined with vehicles and other communication devices with vehicle, classified in class 381, subclass 86.

II. Claims 42, drawn to magnetic field causes motion in a sound radiating device to produce a corresponding acoustical wave, classified in class 381, subclass 396.

3. Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention II has separate utility such as vehicle/electromagnetic. See MPEP § 806.05(d).

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Conclusion

5. Any response to this action should be mailed to:

Commissioner of Patents and Trademarks
Washington, D.C. 20231
